

Mahendra Achari V

ABOUT ME

My name is Mahendra Achari. I am a dedicated and enthusiastic aspiring software developer with three months of experience at Revature, specializing in Full Stack Web Development. My journey in technology began when I had the opportunity to work out of state and acquire skills in Full Stack Web Development using Java, even though my academic background is in Electronics and Communication Engineering. This experience ignited my passion for software development and solidified my decision to pursue a career in this field.

In my professional journey, I have concentrated on establishing a robust foundation in Full Stack Web Development. I have gained a comprehensive understanding of the technologies involved and have refined my problem-solving skills. I take pride in my critical thinking abilities and my capacity to devise innovative solutions. I am eager to continue expanding my knowledge and advancing in my career while maintaining a balanced work-life dynamic, which I believe is crucial for both personal growth and career fulfillment.

A few fun facts about me:

- I am fully Passionate about exploring various game genres.
- I Love Enjoy discovering new cultures and places.
- I am fluent in English ,Telugu and Hindi

Here's the corrected and refined sentence:

I believe that my technical expertise makes me a valuable asset to any team, and I am excited for the opportunity to contribute to new and challenging projects.

Education & Certification

Bachelor's Degree - Bachelor of Technology

 Jawaharlal Nehru Technological University ,Anantapur - Mar 2023

GPA : 7.98

Ecommerce_shoping

The Ecommerce_shoping project aims to develop a secure, user-friendly, and versatile e-commerce application like Amazon for both buyers and sellers. The core functionalities for buyers include browsing products, adding products to cart, checkout, and payment processing. Sellers can add products, manage inventory, and fulfill orders. The project's completion will be demonstrated through a cloud-hosted working version, technical presentation, and associated diagrams.

Environment / Technologies

Java, JavaScript, HTML, CSS, Servlets, Hibernate, JDBC, MySQL
